

# ECO sphere 500/800 GAL SEPTIC TANKS

## A better way to handle effluent disposal

Eco-Sphere Septic Tanks offer features that traditional tanks do not.

- Exceptional strength and durability due to their spherical design.
- Resistant to fracturing - with their prime grade polyethylene structure, Eco-Sphere tanks can withstand earth pressures that will fracture traditional concrete tanks.
- Resistant to most chemicals and impervious to corrosion.
- Lightweight and compact.
- Fitted with an Effluent Filter that ensures no solids enter the soakaway.
- Available with optional manhole extension for easy access.
