

CONICAL TANKS

Product Benefits:

- Manufactured from prime grade polyethylene, providing exceptional strength and durability.
- Resistant to most chemicals and compounds.
- Ideal for a vast range of industrial applications including mixing, settling and storage of viscous solutions.
- Corrosion resistant.
- Because of its cone-shaped bottom, it enables a complete drainage of the liquid content in the tank.
- As they are manufactured from FDA (Food and Drug administration) approved materials, they are safe to store food products as grains, seeds, and cereals.

Specifications:

CAPACITY	DIMENSIONS		WEIGHT
	Diameter	Height	
140 Gallons 529 Litres	35" 89 cm	44" 112 cm	35 lbs 16 kg
400 Gallons 1514 Litres	44" 112 cm	81" 206 cm	65 lbs 30 kg

- Due to its cone-shaped bottom, tanks require a support stand.

Customized Steel Stands are available and sold separately.

Addition of a bottom drain fitting is optional
